

# ACT TEST PREP

My Online Academy

ACT® Tutorials are built from ACT College and Career Readiness Standards and provide students with a less stressful and more successful preparation effort for key areas of the ACT exam.

ACT Mathematics, English, and Reading Tutorials offer targeted instruction, practice, and review. Students engage with the content in an interactive, feedback-rich environment as they progress through ACT test-aligned modules. Students will practice skills essential to the test they're preparing for and build the depth of knowledge, confidence, and higher order skills required to demonstrate mastery when put to the test.

## College Readiness: Our Approach

In each module, the Learn It and Try It makes complex ideas accessible to students through focused content, guided analysis, and practice with personalized feedback so students are empowered to increase their Exam Readiness. The Review It offers an engaging, high impact video summary of key concepts and important to grasp connections. The Test It assesses a student's mastery of the module's concepts, providing granular performance data to students and teachers, linking a student's performance to ACT key idea details and score ranges. To help students focus on the content most relevant to them, unit-level pretests and post tests can quickly identify where students are ready for test day and where they need to continue their review and practice.

This Tutorial is aligned with ACT College and Career Readiness Standards (2014) and ACT College Readiness Benchmark score ranges.
